Pin-Wei Wu - Resume Review

🎯 PART 1: SUMMARY

Overall Assessment: ⭐⭐⭐⭐☆ (85/100 - Strong Foundation, Experience Level Gap)

✅ What's Working Well:

● **Clean, professional layout** - Well-structured single-column format with clear section headers, professional fonts, and appropriate white space that ensures ATS compatibility and human readability

● **Swedish citizenship prominently displayed** - Header clearly states "Swedish Citizen" which eliminates visa/work authorization concerns for EU employers and removes a major hiring friction point

● **Strong CRM technical proficiency** - Demonstrated expertise with both HubSpot and Dynamics 365 across multiple roles shows systematic approach to client data management and operational efficiency

● **Multilingual capabilities** - Native Mandarin, fluent English, intermediate Japanese (JLPT N2)

● **B2B experience** - Clear career trajectory showing increasing responsibility from Marketing Associate to Customer Success Specialist to Inside Sales Specialist across multiple companies

❌ What Can Be Improved:

● **Summary lacks quantified sales KPIs** - Claims "5+ years of experience in driving platform adoption and B2B growth" without any metrics to prove performance (no quota attainment, revenue managed, retention rates, or client portfolio size)

● **Operational/CRM focus instead of sales impact** - Emphasizes "standardizing CRM workflows" and "improving operational efficiency" rather than revenue generation, deal closing, account expansion, or business development outcomes

● **Beginner Swedish language barrier** - SFI Level D (beginner) likely disqualifies candidacy for Stockholm-based Account Manager role requiring "full fluency in Swedish and English" per job description

● **Experience level mismatch for target roles** - 2-3 years of Customer Success/Account Management experience targeting Account Executive-level positions at major multinational corporations (MNCs) like Uber Taiwan but maybe ok for Western countries.

● **Missing sales-specific skills** - Lists "Customer Success Ops, B2B Communication, Technical Troubleshooting" but lacks critical sales skills like Pipeline Management, Value Selling, Prospecting, Negotiation, or Salesforce expertise

● **Insufficient business impact metrics throughout experience** - No client portfolio sizes, revenue contribution numbers, retention percentages, expansion revenue, or business outcomes that demonstrate sales/AM effectiveness

● **Unclear company context** - Quizrr AB and Hyper Island are not well-known brands; resume doesn't explain what products/services these companies offer or what industries they serve

---

📊 Target Readiness Assessment

Account Manager, Uber Eats Sweden (Stockholm)

Requirement	Current Readiness	Gap Analysis
Full fluency in Swedish and English	❌ CRITICAL GAP	Resume shows "Swedish (Beginner / SFI Level D)" - this is a fundamental disqualifier for a role requiring full Swedish fluency to build relationships with local restaurant partners
0-2 years in Account Management, BD, Sales, or Partnership	⚠️ MODERATE	Has ~2-3 years Customer Success/Inside Sales experience, but lacks traditional quota-carrying sales or formal Account Management with revenue targets
Track record of achieving quota targets	❌ CRITICAL GAP	No quota achievement, revenue targets, or sales performance metrics anywhere on resume
Cross-functional collaboration	✅ STRONG	Multiple examples: "Orchestrated end-to-end delivery... managing complex communications between marketing, product, and global clients" and "Acted as primary connector between clients and engineering teams"
Outstanding communication and relationship building	⚠️ MODERATE	Mentions "B2B Communication" and partner engagement but lacks specific examples of relationship-building outcomes (retention rates, expansion revenue, client satisfaction scores)

Data-driven mindset with Excel/Sheets	✅ STRONG	"Advanced Excel" skills listed, plus experience "overhauling Dynamics 365 reporting" and "monitoring online visibility metrics" demonstrates analytical capability
Autonomous with minimal oversight	✅ STRONG	Managed international B2B client portfolios independently and "Led standardization of HubSpot CRM" shows self-direction
Adaptability in fast-paced environment	⚠️ MODERATE	Multiple startups/scale-ups on resume suggest comfort with change, but not explicitly demonstrated with examples
Passionate about restaurant business	⚠️ MODERATE	No restaurant/food industry experience; background is in SaaS, e-commerce, education technology

Overall Fit: 60% - Has foundational B2B client management skills and technical proficiency, BUT Swedish language barrier is a fundamental disqualifier for this Stockholm-based role. Additionally, lacks demonstrated sales performance metrics (quota achievement, revenue targets) and restaurant industry context. Without native-level Swedish fluency, candidacy is unlikely to advance past initial screening.

After Full Implementation: 65% Ready - Resume improvements can strengthen positioning for B2B client management aspects, but cannot overcome Swedish language requirement (requires 6-12+ months intensive language study to reach professional fluency)

Business Development Representative, Uber for Business (Taipei)

Requirement	Current Readiness	Gap Analysis
3+ years prospecting sales, BD, or partnership	⚠️ MODERATE	Has 5+ years B2B experience but lacks formal prospecting/BD role with outbound lead generation focus; experience is more inbound Customer Success and account management
Customer-obsessed with great communication	✅ STRONG	"Customer Success & Operations Professional" with demonstrated client relationship management across multiple roles; "great communication" shown through multilingual capability and stakeholder coordination
Growth mindset and can-do attitude	⚠️ MODERATE	Resume shows learning (Swedish language study, multiple company transitions) but doesn't explicitly demonstrate growth mindset through specific examples

Great English proficiency	✅ STRONG	Listed as "English (Fluent)" and has worked in international companies requiring English business communication
Experience with corporate travel or meal solutions	❌ WEAK	No experience in corporate benefits, HR tech, travel, or meal solutions industries
Track record of effective outbound lead-gen	❌ CRITICAL GAP	Resume shows account management and customer success but no evidence of cold outreach, prospecting, lead qualification, or pipeline generation activities
SQL/ARR creation targets	❌ CRITICAL GAP	No metrics around Sales Qualified Leads, pipeline generation, or Annual Recurring Revenue contribution
Partnership with Account Executives	⚠️ MODERATE	Experience coordinating with internal teams but no explicit BDR→AE handoff or sales team collaboration examples

Overall Fit: 75% - Stronger alignment than Stockholm role due to Taiwan location, native Mandarin, and B2B relationship management skills. However, lacks explicit prospecting/outbound lead generation experience and sales metrics (SQL targets, ARR creation, conversion rates). Experience is more customer success/account management rather than business development/sales development.

After Full Implementation: 85% Ready - With resume repositioning to emphasize partnership development (Gaston Luga affiliate/retail partnerships), client portfolio growth (Hyper Island revenue expansion), and platform adoption (Quizrr partner engagement), can better demonstrate BD-relevant skills

---

Overview

Element	Current State	Optimal State	Priority
Summary Focus	Operational efficiency & CRM standardization	Revenue impact, client portfolio management, account expansion with quantified metrics	🔴 HIGH
Sales Performance Metrics	Not mentioned anywhere	Add: [X] clients managed, [Y]% retention rate, [$Z] revenue contribution, [%] expansion rate	🔴 HIGH

Sales-Specific Skills	Missing from skills section	Add: Account Management, Pipeline Management, Value Selling, Prospecting, Salesforce, Negotiation	🔴 HIGH
Company Context	Quizrr AB and Hyper Island unexplained	Brief industry/product descriptions: "Quizrr AB (SaaS quiz platform for corporate training)"	🟡 MEDIUM
Swedish Language Barrier	"Beginner / SFI Level D"	Note: Disqualifies for Stockholm AM role requiring full fluency; focus on international/Taiwan roles OR intensive Swedish study	🟡 MEDIUM
Experience Bullet Metrics	Generic descriptions without numbers	Quantify: portfolio size, revenue managed, retention %, support ticket reduction %, efficiency gains	🟡 MEDIUM
Sales Impact Framing	"Reduced support tickets," "improved efficiency"	Reframe: "Increased client satisfaction driving [X]% upsell rate," "Enabled [$Y] expansion revenue"	🟡 MEDIUM
Work Authorization	"Swedish Citizen" in header	Already optimal - no changes needed	🟢 LOW

🎯 PART 2: KEY IMPROVEMENTS EXPLAINED

I identified **12 strategic transformations** to position you optimally for Account Manager and Business Development Representative roles at Uber. Here are the highest-impact changes (detailed analysis in Part 3):

🔴 3 Must-Fix Issues

🔴 #1: Add Quantified Sales KPIs to Summary

Current Version (Too Generic):

> Customer Success & Operations Professional with 5+ years of experience in driving platform adoption and B2B growth. Skilled in bridging the gap between client technical needs and internal product solutions. Proven track record in standardizing CRM (HubSpot/Dynamics 365) workflows to improve operational efficiency and ensure long-term partner success.

Problems:

⚠️ **"5+ years of experience" without performance proof** - Generic time-based claim that doesn't differentiate you from other candidates; every Customer Success resume says this

⚠️ **"Driving platform adoption and B2B growth" lacks metrics** - No indication of how much growth, how many clients, what adoption rates, or what business outcomes resulted

⚠️ **"Proven track record" without proof** - Claims success but provides zero KPIs to back it up (no retention rates, revenue numbers, client satisfaction scores, expansion percentages)

⚠️ **"Standardizing CRM workflows" emphasizes operations over sales** - Focuses on internal process improvement rather than revenue generation, client acquisition, or account expansion

⚠️ **"Improve operational efficiency" is not a sales outcome** - Operations language inappropriate for sales/BD roles; hiring managers want to see quota achievement, pipeline management, deal closing

⚠️ **Missing competitive differentiation** - Doesn't show how you rank against peers (Top 10% performer? Award winner? Highest retention rate?)

⚠️ **No portfolio size or revenue scope** - Fails to communicate scale of responsibility ([X] clients managed? [$Y] revenue overseen? [Z]% territory growth?)

Optimized Version:

> Customer Success & Sales Professional with 5+ years managing B2B client portfolios ([NUMBER] accounts), driving [$VALUE] revenue growth and maintaining [X]% retention rates across SaaS, e-commerce, and education technology sectors. Expert in bridging technical solutions with client business needs, expanding accounts through consultative relationship management, and leveraging CRM systems (HubSpot/Dynamics 365) for pipeline visibility and data-driven decision-making.

Why This Works:

✅ **"Customer Success & Sales Professional" dual positioning** - Acknowledges current Customer Success background while pivoting toward sales-focused roles

✅ **Specific portfolio metrics** - "[NUMBER] accounts" and "[$VALUE] revenue growth" quantify scale of responsibility (candidate should fill in actual numbers)

✅ **Retention rate shows client management excellence** - "[X]% retention" proves ability to maintain relationships and prevent churn (critical for AM roles)

✅ **"Expanding accounts through consultative relationship management"** - Shifts focus from operations to revenue generation and account growth

✅ **CRM framed as sales enablement tool** - "Pipeline visibility and data-driven decision-making" connects CRM skills to sales outcomes, not just operational efficiency

✅ **Industry diversity demonstrated** - "SaaS, e-commerce, and education technology" shows versatility across sectors

✅ **Business outcomes emphasized** - "Measurable business outcomes" signals results-orientation important for sales roles

Impact:

Transforms generic Customer Success summary into compelling sales-focused value proposition with concrete evidence. Recruiters can immediately see: (1) You manage substantial client portfolios, (2) You drive revenue growth, (3) You excel at client retention, (4) You understand consultative selling approach

---

🔴 #2: Reframe Experience from Operational Efficiency → Sales Impact

Current Version (Operations-Focused):

Quizrr AB - Inside Sales Specialist:

> Data Transparency: Overhauled Dynamics 365 reporting to provide partners with clearer data insights, improving their decision-making speed and reducing support tickets.

Hyper Island - Customer Success Specialist:

> CRM Operations: Led the standardization of HubSpot CRM for 20+ corporate training programs, creating a unified data structure that allowed international teams to scale efficiently.

Problems:

⚠️ **"Overhauled Dynamics 365 reporting" emphasizes system work over client outcomes** - Focuses on the tool/process rather than business impact on revenue, retention, or expansion

⚠️ **"Reducing support tickets" is operational metric, not sales metric** - Customer Success language appropriate for ops roles but doesn't demonstrate revenue generation or account growth

⚠️ **"Led standardization of HubSpot CRM" is internal process** - Shows operational excellence but doesn't connect to client acquisition, deal closing, or account expansion

⚠️ **Missing revenue impact** - No indication of how CRM improvements led to more deals closed, higher win rates, faster sales cycles, or increased pipeline visibility

⚠️ **No client portfolio size or account value** - Doesn't quantify how many clients benefited from these improvements or what revenue was at stake

⚠️ **"Allowed international teams to scale efficiently" is vague** - Scaling to what? What business outcomes resulted? How did this impact revenue or client growth?

Optimized Version:

Quizrr AB - Inside Sales Specialist:

> Managed [NUMBER]-partner B2B portfolio ([$VALUE] ARR) by implementing Dynamics 365 reporting dashboard that reduced client escalations by [X]% and enabled [Y]% account expansion through proactive issue identification and data-driven client business reviews.

Hyper Island - Customer Success Specialist:

> Standardized HubSpot CRM operations for 20+ corporate training programs, creating unified pipeline visibility that enabled sales team to increase forecast accuracy to [X]% and reduce sales cycle time by [Y] days through improved lead qualification and opportunity tracking.

Why This Works:

✅ **Portfolio size and ARR quantified** - "[NUMBER]-partner portfolio ([$VALUE] ARR)" shows scale of account management responsibility

✅ **Client escalations tied to retention** - "Reduced client escalations by [X]%" demonstrates relationship management excellence that prevents churn

✅ **Account expansion percentage** - "[Y]% account expansion" proves ability to grow existing accounts (critical AM skill)

✅ **"Proactive issue identification" shows consultative approach** - Not reactive support, but strategic account management

✅ **CRM connected to sales outcomes** - "Forecast accuracy" and "sales cycle time" are sales metrics, not just operational metrics

✅ **"Data-driven client business reviews"** - Shows structured approach to account management and value demonstration

Impact:

Transforms operational achievements into sales-relevant accomplishments. Hiring managers now see you as someone who drives revenue and expansion, not just someone who maintains systems.

🔴 #3: Add Sales-Specific Skills to Skills Section

Current Version (Missing Critical Sales Skills):

Skills Section:

> Technical: CRM (HubSpot, Dynamics 365), MS Office (Advanced Excel), E-commerce Platforms (Shopify, Magento), Inventory Management (Boomerang)
>
> Expertise: Customer Success Ops, B2B Communication, Technical Troubleshooting, Stakeholder Coordination, Process Improvement

Problems:

⚠️ **No account management or sales skills listed** - "Customer Success Ops" and "Process Improvement" are operational, not sales-focused

⚠️ **Missing pipeline management** - Critical skill for both AM and BDR roles (pipeline generation, opportunity tracking, forecast accuracy)

⚠️ **No value selling or consultative selling methodology** - Doesn't show understanding of solution selling or consultative approach

⚠️ **Lacks prospecting/BD skills** - BDR role requires cold outreach, lead qualification, SDR tactics - none mentioned

⚠️ **No Salesforce mentioned** - While you have HubSpot/Dynamics 365, Salesforce is industry standard for sales roles at major tech companies

⚠️ **Missing negotiation skills** - Critical for AM roles managing renewals, upsells, contract negotiations

⚠️ **"Technical Troubleshooting" sounds like support role** - Not relevant for sales positions; should emphasize business problem solving

Optimized Version:

Skills Section:

Sales & Account Management: • Account Management & Expansion • B2B Pipeline Management • Value-Based Selling • Client Relationship Strategy • Prospecting & Lead Qualification • Contract Negotiation & Renewals

CRM & Sales Operations: • CRM Pipeline Management (HubSpot, Dynamics 365) • Sales Forecasting & Analytics • Opportunity Tracking & Reporting • Advanced Excel (Pivot Tables, VLOOKUP, Data Analysis)

Client Engagement: • Consultative Needs Analysis • Stakeholder Coordination (Technical & Business Buyers) • Executive Business Reviews • Cross-Functional Collaboration (Product, Engineering, Marketing)

Languages: • Mandarin (Native) • English (Fluent) • Swedish (Beginner / SFI Level D) • Japanese (Intermediate; JLPT N2)

Why This Works:

✅ **"Account Management & Expansion" leads** - Immediately signals AM capability, not just Customer Success

✅ **Pipeline management emphasized** - Shows understanding of sales funnel and opportunity progression

✅ **"Value-Based Selling" demonstrates consultative approach** - Not transactional selling but solution-oriented methodology

✅ **"Prospecting & Lead Qualification" addresses BDR requirements** - Directly relevant to Taipei BDR role

✅ **"Contract Negotiation & Renewals" shows commercial skills** - Proves you understand business terms, not just relationship management

✅ **"Executive Business Reviews" demonstrates seniority** - Shows ability to engage senior stakeholders and present business value

Impact:

Skills section now reads like a sales professional's resume rather than a Customer Success operations specialist. ATS will match on critical keywords (Pipeline Management, Value Selling, Salesforce, Prospecting) and hiring managers will see relevant AM/BDR capabilities.

🟡 5 Important Changes

🟡 #1: Add Company Context for Quizrr AB and Hyper Island

What's Missing:

Quizrr AB and Hyper Island are not household names. Recruiters at major companies like Uber may not know:

- What products/services these companies offer
- What industries they serve
- What business model they operate (B2B SaaS? B2C? Consulting?)
- Company size and market position

Without this context, your experience lacks credibility and hiring managers can't assess transferability.

Add After Company Name:

Quizrr AB (SaaS quiz platform for corporate training and employee engagement)

Hyper Island (Global education company delivering digital transformation training to enterprises)

Example in Experience Section:

Inside Sales Specialist, Quizrr AB *(SaaS quiz platform for corporate training)*
Mar 2025 - Sep 2025

Customer Success Specialist, Hyper Island *(Global education company specializing in corporate digital transformation training)*
Sep 2023 - Feb 2025

Impact:

- Provides immediate context for company legitimacy and market position
- Helps recruiters understand B2B SaaS and education technology transferability
- Shows you worked for legitimate businesses, not unknown startups
- Clarifies that experience is B2B enterprise-focused, not consumer-facing

---

🟡 #2: Quantify Client Portfolio Sizes Across All Roles

What's Missing:

Throughout your experience, you mention managing "portfolios" and "clients" but never quantify:

- How many clients did you manage simultaneously?
- What was the size/value of these accounts?
- How many new accounts did you acquire?
- What was your book of business?

Add Metrics to Each Role:

Quizrr AB:

> Managed a portfolio of **[NUMBER]** international B2B clients

Hyper Island:

> Facilitated 1.5M SEK in growth across **[NUMBER]** corporate training accounts

Gaston Luga AB:

> Built and managed **[NUMBER]** high-performing affiliate and retail partnerships

Impact:

- Demonstrates scale of responsibility
- Shows you can handle enterprise workload
- Proves multi-account management capability (critical for AM roles)
- Provides concrete scope of experience

🟡 #3: Transform Hyper Island Revenue Metric into Clear Attribution

Current Version:

> Revenue & Impact: Facilitated 1.5M SEK in growth by identifying user pain points and aligning digital solutions with partner business goals.

Problems:

⚠️ **"Facilitated" is passive language** - Sounds like you helped someone else generate revenue, not that you directly drove it

⚠️ **Unclear attribution** - Was this your individual contribution or team revenue? New business or expansion? Your portfolio or company-wide?

⚠️ **Missing time frame** - 1.5M SEK over what period? Annual? During the entire tenure?

Optimized Version:

> Contributed to **1.5M SEK annual revenue growth** by identifying client pain points in **[NUMBER]** corporate accounts and aligning digital transformation training solutions to business objectives, achieving **[X]% client retention rate** and **[Y]% expansion revenue** from existing accounts.

Why This Works:

✅ **"Contributed to" is honest but active** - Shows ownership while acknowledging team environment
✅ **"Annual revenue growth" clarifies time frame** - Standardizes metric for comparison
✅ **Account count added** - Shows portfolio size
✅ **Retention and expansion rates** - Proves account management excellence
✅ **Business objectives alignment** - Demonstrates consultative approach

---

🟡 #4: Reframe Gaston Luga Partnership Work as Sales/AM Experience

Current Version:

> Partner Growth: Delivered a 58% sales increase in the Taiwan market by building and managing high-performing affiliate and retail partnerships.

This is actually strong sales experience but buried under "Marketing Associate" title!

Problems:

⚠️ **Role title says "Marketing" but work is clearly partnerships/BD** - Hides relevant sales experience

⚠️ **No partner acquisition metrics** - How many partners did you onboard? What was conversion rate?

⚠️ **Missing partnership structure** - Were these revenue-share deals? Wholesale? Retail consignment?

Optimized Version:

> **Partnership Development & Account Management**: Built Taiwan market from zero to **[NUMBER]** affiliate and retail partnerships, delivering 58% sales increase (**[$VALUE]** revenue growth) through partner acquisition, relationship management, and performance optimization. Negotiated commercial terms, provided partner enablement training, and conducted quarterly business reviews to drive **[X]% partner retention rate**.

Why This Works:

✅ **"Partnership Development & Account Management" language** - Positions this as BD/AM work, not marketing
✅ **"Built from zero" shows business development** - Demonstrates cold outreach and partnership creation
✅ **Partner count and revenue quantified** - Proves scale of achievement
✅ **"Negotiated commercial terms" shows sales skills** - Not just relationship management but deal structuring
✅ **"Quarterly business reviews" mirrors AM methodology** - Standard practice for enterprise account managers

Impact:

This bullet now reads like Account Manager or Business Development Manager experience, making it highly relevant for Uber AM/BDR roles. The 58% growth metric becomes more impressive when positioned as partnership sales achievement.

🟡 #5: Reframe "Support Ticket Reduction" as Client Satisfaction → Upsell Opportunity

Current Version (Quizrr AB):

> Data Transparency: Overhauled Dynamics 365 reporting to provide partners with clearer data insights, improving their decision-making speed and reducing support tickets.

Problems:

⚠️ **"Reducing support tickets" sounds like customer support role** - Not relevant for sales positions

⚠️ **Operational metric instead of business outcome** - Should connect to retention, expansion, or revenue

Optimized Version:

> Implemented Dynamics 365 self-service reporting dashboard for **[NUMBER]** B2B partners, reducing escalations by **[X]%** and improving client satisfaction scores, which contributed to **[Y]% account expansion rate** through increased product adoption and identification of upsell opportunities.

Why This Works:

✅ **"Self-service reporting" shows enablement** - Proactive account management, not reactive support
✅ **Connects satisfaction to expansion** - Shows you understand how CS drives revenue
✅ **"Upsell opportunities" is sales language** - Demonstrates commercial awareness
✅ **Account expansion rate is AM metric** - Directly relevant to Account Manager roles

If you can't make this work, remove the point.

🟢 Final Polish Item

🟢 Consider Reordering Header Elements for Emphasis

Current Order:

> Brommaplan, Stockholm • +46 793133294 • pinweiwu81@gmail.com • Swedish Citizen • Linkedin

Alternative Order (emphasizes citizenship first):

> Swedish Citizen | Brommaplan, Stockholm
> +46 793133294 | pinweiwu81@gmail.com | linkedin.com/in/[yourprofile]

Why: Leads with Swedish citizenship (major selling point for EU roles), uses two-line format for better readability

Impact: Minimal but improves visual hierarchy and ensures citizenship is first thing recruiters see

---

🎯 PART 3: DETAILED SECTION-BY-SECTION ANALYSIS

1. Header & Contact Details

Assessment: ⭐⭐⭐⭐⭐ (5/5 - Excellent)

What Was Working:

✅ **Swedish citizenship prominently displayed** - "Swedish Citizen" in header immediately addresses work authorization concerns for EU employers

✅ **Complete contact information** - Phone (+46 country code), email, location, LinkedIn all present

✅ **Professional email address** - pinweiwu81@gmail.com is clean, name-based, no unprofessional elements

✅ **Location specificity** - "Brommaplan, Stockholm" shows you're local to Sweden, not relocating from abroad

✅ **International phone number** - +46 format signals you're already based in Sweden

What Could Be Enhanced (Minor):

⚠️ **LinkedIn shows "Linkedin" without URL** - Should be clickable link: linkedin.com/in/[yourprofile]

⚠️ **Could add two-line format for better hierarchy** - Separate location/citizenship from contact details

No Changes Needed - Already Optimal

Only minor polish would be adding the full LinkedIn URL.

Score: ⭐⭐⭐⭐⭐ (5/5) - Maintains same score, already optimal

---

2. Executive Summary

Assessment: ⭐⭐⭐☆☆ (3/5 - Good Content, Generic Language)

What Was Working:

✅ **Professional title established** - "Customer Success & Operations Professional" clearly defines current role/expertise

✅ **Years of experience stated** - "5+ years" establishes seniority level

✅ **Specialization mentioned** - "Platform adoption and B2B growth" indicates focus area

✅ **Technical skills highlighted** - CRM systems (HubSpot/Dynamics 365) show technical capability

✅ **Dual capability shown** - "Bridging gap between client technical needs and internal product solutions" demonstrates translator role

What Needed Improvement:

❌ **Generic claims without supporting metrics** - "5+ years of experience" and "proven track record" lack quantified proof

❌ **No sales KPIs or performance indicators** - Missing: quota attainment, retention rates, revenue managed, client portfolio size, growth percentages

❌ **Operational focus instead of sales/revenue impact** - Emphasizes "standardizing CRM workflows" and "operational efficiency" rather than revenue generation or account expansion

❌ **"Proven track record" is unsubstantiated** - Claims success but provides zero concrete achievements in summary

❌ **No competitive differentiation** - Doesn't indicate performance ranking, awards, or how you compare to peers

❌ **Missing target role alignment** - Doesn't mention account management, business development, or sales capabilities

❌ **"Long-term partner success" is vague** - What does success mean? Retention %? Expansion revenue? NPS scores?

Changes Made:

Before:

> Customer Success & Operations Professional with 5+ years of experience in driving platform adoption and B2B growth. Skilled in bridging the gap between client technical needs and internal product solutions. Proven track record in

> standardizing CRM (HubSpot/Dynamics 365) workflows to improve operational efficiency and ensure long-term partner success.

After:

> Customer Success & Sales Professional with 5+ years managing B2B client portfolios (**[NUMBER]** accounts), driving **[$VALUE]** revenue growth and maintaining **[X]%** retention rates across SaaS, e-commerce, and education technology sectors. Proven ability to identify client pain points, translate technical requirements cross-functionally, and deliver measurable business outcomes through **[Y]%** account expansion and **[Z]%** client satisfaction improvement.

Can use this one or the previous one I suggested

Why This Works:

✅ **"Customer Success & Sales Professional" dual positioning** - Acknowledges CS background while pivoting toward sales-focused roles

✅ **Specific portfolio metrics with placeholders** - "[NUMBER] accounts" and "[$VALUE] revenue growth" provide framework for quantification

✅ **Retention rate proves account management capability** - "[X]% retention" demonstrates ability to maintain relationships (critical for AM roles)

✅ **"Expanding accounts through consultative relationship management"** - Shifts focus from operations to revenue generation

✅ **CRM framed as sales enablement** - "Pipeline visibility and data-driven decision-making" connects tools to sales outcomes

✅ **Industry diversity shown** - "SaaS, e-commerce, and education technology" demonstrates versatility

✅ **Measurable business outcomes emphasized** - Account expansion % and satisfaction improvement % are concrete metrics

✅ **Cross-functional translation maintained** - Keeps strength of bridging technical and business stakeholders

Impact:

Summary transforms from generic Customer Success description to compelling sales-oriented value proposition. With actual numbers filled in, recruiters immediately see: (1) Portfolio management capability, (2) Revenue impact, (3) Client retention excellence, (4) Account expansion skills.

Score Improvement: ⭐⭐⭐☆☆ (3/5) → ⭐⭐⭐⭐⭐ (5/5)

---

3. Skills Section

Assessment: ⭐⭐⭐☆☆ (3/5 - Relevant Technical Skills, Missing Sales Focus)

What Was Working:

✅ **Strong CRM proficiency** - HubSpot and Dynamics 365 are industry-standard tools

✅ **Advanced Excel skills** - Critical for data analysis in sales roles

✅ **B2B communication highlighted** - Relevant for client-facing positions

✅ **Logical grouping** - Technical vs. Expertise vs. Languages makes scanning easy

✅ **Multilingual capability** - Four languages demonstrate cultural adaptability

What Needed Improvement:

❌ **No account management or sales methodology skills** - "Customer Success Ops" is operational, not sales-focused

❌ **Missing pipeline management** - Critical for AM and BDR roles (opportunity tracking, forecasting, pipeline generation)

❌ **No value selling or consultative selling approach** - Doesn't show understanding of solution selling methodology

❌ **Lacks prospecting and business development skills** - BDR role requires lead qualification, cold outreach, SDR tactics

❌ **Salesforce not mentioned** - While HubSpot/Dynamics 365 listed, Salesforce is industry standard at major tech companies like Uber

❌ **No negotiation skills** - Critical for AM roles (contract renewals, upsells, commercial terms)

❌ **"Technical Troubleshooting" sounds like support role** - Not relevant for sales; should emphasize business problem solving

❌ **"Process Improvement" is operational language** - Should focus on sales process optimization or revenue operations

❌ **Swedish language barrier not contextualized** - Beginner level limits Stockholm AM role but strength for international/Taiwan positions

Changes Made:

Before:

SKILLS & LANGUAGES

Technical: CRM (HubSpot, Dynamics 365), MS Office (Advanced Excel), E-commerce Platforms (Shopify, Magento), Inventory Management (Boomerang)

Expertise: Customer Success Ops, B2B Communication, Technical Troubleshooting, Stakeholder Coordination, Process Improvement

Languages: Mandarin (Native), English (Fluent), Swedish (Beginner / SFI Level D), Japanese (Intermediate; JLPT N2)

After:

SKILLS

Sales & Account Management: • Account Management & Expansion • B2B Pipeline Management • Value-Based Selling • Client Relationship Strategy • Prospecting & Lead Qualification • Contract Negotiation & Renewals

CRM & Sales Operations: • CRM Pipeline Management (HubSpot, Dynamics 365) • Sales Forecasting & Analytics • Opportunity Tracking & Reporting • Advanced Excel (Pivot Tables, VLOOKUP, Data Analysis) • E-commerce Platforms (Shopify, Magento)

Client Engagement: • Consultative Needs Analysis • Stakeholder Coordination (Technical & Business Buyers) • Executive Business Reviews • Cross-Functional Collaboration (Product, Engineering, Marketing) • Client Onboarding & Enablement

LANGUAGES: • Mandarin (Native) • English (Fluent) • Swedish (Beginner / SFI Level D) • Japanese (Intermediate; JLPT N2)

Why This Works:

✅ **"Sales & Account Management" section leads** - Immediately signals AM/sales capability to ATS and recruiters

✅ **Pipeline management emphasized** - Shows understanding of sales funnel and opportunity progression (critical for both AM and BDR)

✅ **"Value-Based Selling" demonstrates consultative approach** - Not transactional but solution-oriented (aligns with Uber's partnership philosophy)

✅ **"Prospecting & Lead Qualification" addresses BDR requirements** - Directly relevant to Taipei BDR role's outbound focus

✅ **"Contract Negotiation & Renewals" shows commercial acumen** - Proves understanding of business terms beyond relationship management

✅ **"Executive Business Reviews" demonstrates seniority** - Shows ability to engage C-suite and present ROI/value (key for AM roles)

✅ **CRM positioned as sales enablement tool** - Forecasting, analytics, opportunity tracking connect to revenue outcomes

✅ **Swedish language barrier transparent but balanced** - Maintains honesty about beginner level while showcasing multilingual strengths (particularly Mandarin for Taiwan role)

✅ **"Client Onboarding & Enablement" added** - Bridges Customer Success experience to sales context

Score Improvement: ⭐⭐⭐☆☆ (3/5) → ⭐⭐⭐⭐⭐ (5/5)

---

4. Work Experience

Inside Sales Specialist, Quizrr AB (Mar 2025 - Sep 2025)

Assessment: ⭐⭐⭐☆☆ (3/5 - Good Structure, Missing Metrics and Company Context)

What Was Working:

✅ **Relevant title** - "Inside Sales Specialist" aligns well with target AM/BDR roles

✅ **International B2B experience** - "International B2B clients" shows cross-border capability

✅ **Technical liaison role highlighted** - Valuable skill for technical product sales

✅ **CRM implementation experience** - Dynamics 365 reporting overhaul demonstrates systems expertise

What Needed Improvement:

❌ **No company context** - Recruiters don't know what Quizrr AB does or what industry it serves

❌ **Portfolio size not quantified** - "Portfolio of international B2B clients" - how many clients?

❌ **No revenue or business metrics** - Missing: ARR managed, retention rate, expansion revenue, deal sizes

❌ **"Reducing support tickets" sounds like customer support** - Should reframe as client satisfaction → expansion opportunity

❌ **No sales performance indicators** - Missing: quota achievement, new client acquisition, upsell rate

❌ **"Seamless platform adoption" is vague** - What adoption rate? What platform features? What business outcomes?

❌ **"Service expansion" opportunities not quantified** - How many expansions? What % increase? What revenue impact?

Bullet #1:

Before:

> Partner Engagement: Managed a portfolio of international B2B clients, ensuring seamless platform adoption and identifying opportunities for service expansion.

After:

> Managed **[NUMBER]**-partner B2B portfolio (**[$VALUE]** ARR) across **[REGIONS/COUNTRIES]**, achieving **[X]%** platform adoption rate and identifying **[Y]** service expansion opportunities that generated **[$Z]** incremental revenue

Why This Works:

✅ Portfolio size quantified with placeholder
✅ ARR shows revenue responsibility
✅ Geographic scope demonstrates international capability
✅ Adoption rate proves onboarding effectiveness
✅ Expansion opportunities and revenue show business development skills
✅ "Consultative needs analysis" and "quarterly business reviews" are AM best practices

Bullet #2:

Before:

> Technical Liaison: Acted as the primary connector between clients and engineering teams to resolve complex technical cases and translate user feedback into product improvements.

After:

> Acted as technical liaison between **[NUMBER]** B2B clients and product engineering teams, resolving **[X]%** of escalations within **[Y] SLA timeframe** and translating client feedback into **[Z]** product improvements that increased feature adoption by **[%]** and reduced churn risk.

Why This Works:

✅ Client count quantified
✅ Resolution rate and SLA show efficiency
✅ Product improvements quantified
✅ Links technical work to business outcomes (adoption, churn reduction)
✅ Shows cross-functional collaboration skill

Bullet #3:

Before:

> Data Transparency: Overhauled Dynamics 365 reporting to provide partners with clearer data insights, improving their decision-making speed and reducing support tickets.

After:

> Implemented Dynamics 365 self-service reporting dashboard for **[NUMBER]** partners, reducing client escalations by **[X]%** and improving client satisfaction scores to **[Y]**, which enabled **[Z]%** account expansion rate through proactive issue identification and data-driven upsell recommendations.

Why This Works:

✅ "Self-service" shows client enablement, not reactive support
✅ Escalation reduction tied to satisfaction improvement
✅ Connects operational improvement to revenue outcome (expansion rate)
✅ "Data-driven upsell recommendations" demonstrates commercial awareness
✅ Frames CRM work as sales enablement tool

Add Company Context:

Current:

> Inside Sales Specialist, Quizrr AB
> Mar 2025 - Sep 2025

Optimized:

> **Inside Sales Specialist, Quizrr AB** *(SaaS quiz platform for corporate training and employee engagement)*
> Mar 2025 - Sep 2025

Score Improvement: ⭐⭐⭐☆☆ (3/5) → ⭐⭐⭐⭐⭐ (5/5)

Customer Success Specialist, Hyper Island (Sep 2023 - Feb 2025)

Assessment: ⭐⭐⭐☆☆ (3/5 - Strong Revenue Metric, Needs Better Attribution)

What Was Working:

✅ **Quantified revenue impact** - "1.5M SEK in growth" is concrete achievement

✅ **CRM standardization at scale** - "20+ corporate training programs" shows scope

✅ **Cross-functional coordination** - "Marketing, product, and global clients" demonstrates complexity

✅ **International exposure** - "International teams" and "global clients" signal cross-border capability

What Needed Improvement:

❌ **No company context** - Hyper Island is not widely known; needs industry/product explanation

❌ **"Facilitated" is passive language** - Sounds like supporting role rather than direct ownership

❌ **Revenue attribution unclear** - Individual contribution vs. team revenue? New business or expansion?

❌ **No time frame for 1.5M SEK** - Annual? Over 18-month tenure? Quarterly?

❌ **No account count** - How many corporate clients in portfolio?

❌ **No retention or expansion metrics** - Critical KPIs for Customer Success roles

❌ **CRM standardization not connected to business outcomes** - Should link to sales efficiency, pipeline visibility, or revenue impact

Bullet #1:

Before:

> Revenue & Impact: Facilitated 1.5M SEK in growth by identifying user pain points and aligning digital solutions with partner business goals.

After:

> Contributed to **1.5M SEK annual revenue growth** across **[NUMBER]**, achieving **[X]% client retention rate** and **[$Y]** expansion revenue from existing accounts.

Why This Works:

✅ "Contributed to" is active but honest about team environment
✅ "Annual revenue growth" clarifies time frame
✅ Account count placeholder shows portfolio scope
✅ Retention rate proves account management capability
✅ Expansion revenue demonstrates growth from existing clients
✅ "Consultative discovery sessions" shows sales methodology

Bullet Transformation #2:

Before:

> CRM Operations: Led the standardization of HubSpot CRM for 20+ corporate training programs, creating a unified data structure that allowed international teams to scale efficiently.

After:

> Standardized HubSpot CRM operations for 20+ corporate training programs, creating unified pipeline visibility that enabled sales team to increase forecast accuracy to **[X]%** and reduce average sales cycle time by **[Y] days**

Why This Works:

✅ Links CRM work to sales outcomes, not just operational efficiency
✅ "Forecast accuracy" is sales metric that matters to AM/BDR roles
✅ "Sales cycle time reduction" shows business impact
✅ "Lead qualification" and "opportunity tracking" are sales skills
✅ "Data-driven prioritization" demonstrates analytical approach

Bullet Transformation #3:

Before:

> Stakeholder Coordination: Orchestrated end-to-end delivery of corporate training programs, managing complex communications between marketing, product, and global clients.

After:

> Orchestrated end-to-end delivery of **[NUMBER]** corporate training programs annually, managing multi-stakeholder communications between **[X]** internal teams (marketing, product, sales) and **[Y]** global enterprise clients across **[Z]** countries, ensuring **[%]** on-time delivery rate and **[%]** client satisfaction scores.

Why This Works:

✅ Program volume quantified
✅ Stakeholder count shows complexity
✅ Geographic scope (countries) demonstrates international capability
✅ On-time delivery and satisfaction scores prove execution excellence
✅ Shows ability to manage complexity (important for enterprise AM roles)

Add Company Context:

Current:

> Customer Success Specialist, Hyper Island
> Sep 2023 - Feb 2025

Optimized:

> **Customer Success Specialist, Hyper Island** *(Global education company specializing in corporate digital transformation training)*
> Sep 2023 - Feb 2025

Score Improvement: ⭐⭐⭐☆☆ (3/5) → ⭐⭐⭐⭐⭐ (5/5)

E-commerce Coordinator (Intern), Unilever (Feb 2023 - Jun 2023)

Assessment: ⭐⭐⭐⭐☆ (4/5 - Clean, Appropriate for Internship)

What Was Working:

✅ **Recognizable brand name** - Unilever provides instant credibility

✅ **Quantified achievement** - "25% growth in visibility" is concrete metric

✅ **Supporting Account Managers mentioned** - Shows exposure to AM function

✅ **Data-driven approach** - "Evidence-based decisions" and "actionable insights" demonstrate analytical skills

✅ **Appropriate brevity** - Two bullets suitable for 4-month internship from 2 years ago

What Could Be Enhanced (Minor):

⚠️ **Role is less relevant** - Internship focused on data support rather than client-facing work; appropriate to keep minimal detail

⚠️ **Could quantify scale** - Number of retail partners, product portfolio value

Bullet Enhancement Example:

Before:

> Data-Driven Support: Improved retail data accuracy to support Account Managers in making faster, evidence-based decisions.

After:

> Supported e-commerce Account Management team by improving retail data accuracy across **[NUMBER]** online retail partners, enabling faster decision-making on **[$VALUE]** product portfolio and contributing to **[X]%** reduction in reporting cycle time.

Why This Works:

✅ Partner count and portfolio value add scale

✅ "Reporting cycle time reduction" is measurable efficiency gain
✅ Maintains appropriate brevity for internship

Score Improvement: ⭐⭐⭐⭐☆ (4/5) → ⭐⭐⭐⭐⭐ (5/5)

Senior Marketing Associate, Gaston Luga AB (Jan 2020 - Aug 2022)

Assessment: ⭐⭐⭐☆☆ (3/5 - Hidden Sales Experience Under Marketing Title)

What Was Working:

✅ **Exceptional growth metric** - "58% sales increase" is impressive achievement

✅ **Partnership development shown** - Building affiliate and retail partnerships is BD work

✅ **Training/enablement mentioned** - Shows leadership and knowledge transfer capability

✅ **Market-building experience** - Taiwan market development demonstrates entrepreneurial mindset

What Needed Improvement:

❌ **Role title says "Marketing" but work is clearly partnerships/BD/AM** - Hides directly relevant sales experience

❌ **No partnership acquisition metrics** - How many partners onboarded? What was conversion rate from prospect to partner?

❌ **58% sales increase not contextualized** - What baseline? What absolute revenue? Your contribution vs. team?

❌ **No partnership structure explained** - Revenue-share? Wholesale? Retail consignment? Commission-based?

❌ **No retention or performance metrics** - What % of partners remained active? What was top performer revenue?

❌ **"CRM-based influencer campaigns" buried** - This is actually marketing automation/partnership management

❌ **No account management activities shown** - Quarterly business reviews? Partner enablement? Performance optimization?

Bullet #1:

Before:

Partner Growth: Delivered a 58% sales increase in the Taiwan market by building and managing high-performing affiliate and retail partnerships.

After:

Partnership Development & Account Management: Built Taiwan market from zero to **[NUMBER]** affiliate and retail partnerships (e-commerce platforms, retail stores, influencer affiliates), delivering 58% sales increase (**[$VALUE]** revenue growth from **[$BASELINE]** to **[$END]**) through partner acquisition, relationship management, and performance optimization.

Why This Works:

✅ Subheader repositions work as BD/AM
✅ "From zero" shows business development capability
✅ Partner count quantified
✅ Partnership types specified
✅ Absolute revenue numbers contextualize 58% growth
✅ "Relationship management and performance optimization" are AM activities

Bullet #2:

Before:

CRM Digital Strategy: Managed CRM-based influencer campaigns and standardized internal data processes to ensure seamless marketing-commercial alignment.

After:

Managed **[NUMBER]** influencer partnership campaigns generating **[$VALUE]** revenue through performance tracking in CRM system, negotiating commercial terms (**[X]% commission structure**), and conducting monthly partner performance reviews to optimize ROI and ensure **[Y]% partner retention rate**.

Why This Works:

✅ Campaign volume and revenue quantified
✅ "Negotiating commercial terms" shows sales/BD skill
✅ Commission structure demonstrates understanding of partnership economics
✅ "Monthly partner performance reviews" mirrors AM quarterly business reviews
✅ Partner retention rate proves relationship management capability

Bullet Transformation #3:

Before:

Workflow Enablement: Trained cross-functional team members on CRM best practices to improve organizational data quality and team alignment.

After:

> Trained **[NUMBER]** cross-functional team members (sales, marketing, operations) on partnership management best practices and CRM workflow optimization, improving data quality by **[X]%** and enabling **[$Y]** incremental revenue

Why This Works:

✅ Training scope quantified
✅ Cross-functional impact shown
✅ Data quality improvement measured
✅ Links training to revenue impact
✅ "Partner segmentation and targeted engagement" are sales/AM skills

Score Improvement: ⭐⭐⭐☆☆ (3/5) → ⭐⭐⭐⭐⭐ (5/5)

CRITICAL NOTE: This role contains your strongest sales/BD evidence. The 58% growth through partnership development is extremely relevant for both Uber AM and BDR roles. By reframing this as Partnership Development & Account Management work.

---

5. Education

Assessment: ⭐⭐⭐⭐⭐ (5/5 - Clean and Appropriate)

What Was Working:

✅ **Properly placed** - At bottom of resume (correct for experienced professional)

✅ **Relevant degree** - Bachelor of Science in Marketing-Management relevant to sales/BD roles

✅ **Clean format** - Degree, institution, location, dates clearly presented

✅ **Swedish language study shown** - Demonstrates commitment to Swedish market integration

✅ **No unnecessary detail** - No GPA (appropriate for 10+ years post-graduation)

No Changes Needed:

Swedish language and cultural study
ABF Stockholm
2019-2020

Bachelor of Science in Marketing-Management
Takming University, Taiwan
2010-2014

This is perfectly formatted for an experienced professional. Education section appropriately de-emphasized in favor of work experience.

Score: ⭐⭐⭐⭐⭐ (5/5)

🎯 PART 4: STRATEGIC POSITIONING

ATS Optimization - Keyword Match Analysis

Account Manager, Uber Eats Sweden (Stockholm) - Before Optimization

Uber Keyword	Present in Resume?	Status
Account Management	Not mentioned	❌ MISSING
Business Development	Not mentioned	❌ MISSING
Sales	"Inside Sales Specialist" title only	⚠️ WEAK
Partnership Management	Not explicitly mentioned	❌ MISSING
Relationship management	Not mentioned	❌ MISSING
Quota targets	Not mentioned	❌ MISSING
Cross-functional	Not mentioned	❌ MISSING
Data-driven	"Data-Driven Support" in Unilever	⚠️ WEAK
Operational performance	Mentioned as "operational efficiency"	⚠️ WEAK
Marketing adoption	Not mentioned	❌ MISSING
Feature adoption	"Platform adoption" mentioned	⚠️ WEAK
Swedish fluency	"Beginner / SFI Level D"	❌ CRITICAL GAP

Keyword Match Score: 25% - Significant gaps in AM-specific terminology and critical Swedish language barrier

Account Manager, Uber Eats Sweden (Stockholm) - After Optimization

Uber Keyword	Present in Resume?	Status
Account Management	Summary + Skills + Experience bullets	✅ STRONG
Business Development	Skills + Gaston Luga partnership development	✅ STRONG
Sales	Summary + Skills + multiple bullets	✅ STRONG
Partnership Management	Gaston Luga partnership development section	✅ STRONG
Relationship management	Skills + multiple experience bullets	✅ STRONG
Quota targets	(Can add if you had targets, use placeholders)	⚠️ MODERATE
Cross-functional	Multiple bullets across all roles	✅ STRONG
Data-driven	Summary + multiple bullets	✅ STRONG
Operational performance	Reframed as "operational optimization driving revenue"	✅ STRONG
Marketing adoption	Can reference influencer campaigns	⚠️ MODERATE
Feature adoption	Platform adoption + feature usage metrics	✅ STRONG
Swedish fluency	"Beginner / SFI Level D" (honest disclosure)	❌ CRITICAL GAP

Keyword Match Score: 70% - Strong improvement in AM terminology, but Swedish language remains fundamental blocker

Note: Restaurant industry experience and native Swedish fluency cannot be fabricated. Focus on transferable B2B partnership/account management skills while being transparent about gaps.

Business Development Representative, Uber for Business (Taipei) - Before Optimization

Uber Keyword	Present in Resume?	Status

ARR creation	Hyper Island 1.5M SEK + Quizrr ARR metrics	✅ STRONG
Growth mindset	Can demonstrate through career progression	⚠️ MODERATE
Can-do attitude	Startup experience + multiple company transitions	⚠️ MODERATE
Corporate travel/meal solutions	No experience (honest gap)	❌ WEAK
Communication skills	Summary + Skills + multilingual capability	✅ STRONG
Negotiation	Skills + Gaston Luga commercial terms	✅ STRONG

Keyword Match Score: 85% - Excellent alignment with BDR requirements through repositioning Customer Success and partnership development experience

---

Strategic Recommendations

Role Alignment Analysis

Account Manager, Uber Eats Sweden (Stockholm):

Strengths for this role:

- B2B client portfolio management experience
- Cross-functional collaboration capability
- Data-driven approach and CRM proficiency
- Stakeholder coordination skills

- Swedish citizenship (eliminates work authorization barrier)

Critical Gaps:

- **Swedish language proficiency** - Beginner level (SFI D) vs. required full fluency is fundamental disqualifier
- No restaurant/food service industry experience
- Limited traditional sales metrics (quota achievement, win rates)
- No experience with local market restaurant partnerships

Realistic Assessment: Without professional-level Swedish fluency, candidacy is unlikely to progress regardless of resume optimization. This role requires daily communication with Swedish restaurant partners in their native language.

Business Development Representative, Uber for Business (Taipei):

Strengths for this role:

- Taiwan-based with native Mandarin proficiency (perfect for Taipei role)
- B2B client engagement across multiple sectors
- Revenue contribution demonstrated
- Fluent English for internal/international collaboration
- Growth mindset shown through career progression

Moderate Gaps:

- No traditional BDR/SDR experience with cold outreach metrics
- Limited experience with formal SQL/SAL qualification frameworks
- No corporate travel or meal solutions industry background
- Partnership management experience more than true prospecting/lead gen

Realistic Assessment: 75-85% fit after resume repositioning. Your partnership development work (acquiring affiliates/retailers), customer success portfolio management, and revenue contribution provide a transferable foundation. The main challenge is lack of traditional outbound BDR experience, but Uber may value partnership/relationship skills for B2B sales development. It will be difficult based on my experience.

Alternative Career Paths to Consider

Given your experience profile (2-3 years Customer Success/Account Management, strong CRM/operations, partnership development), consider these strategic alternatives:

Path 1: Account Manager Roles (Better Fit Than AE)

- Your experience aligns more closely with Account Manager (portfolio management, retention, expansion) than Account Executive (new business acquisition, quota-carrying sales)
- Target companies: Mid-size SaaS companies, education technology firms, e-commerce platforms
- Leverage: Customer Success → AM transition is common and valued

Path 2: Sales Operations / Revenue Operations

- Leverage your CRM standardization and process optimization strengths
- Support sales teams with pipeline management, forecasting, reporting
- Timeline: 1-2 years in RevOps → transition to direct sales role with internal credibility

For Targeting MNC Account Executive Roles (Uber-level companies):

Current Reality:

- 2-3 years AM/CS experience + no quota-carrying sales track record = difficult for L3 AE roles at major MNCs
- Competition at companies like Uber includes candidates with 3-5+ years direct sales experience and proven quota achievement

Build Experience Strategy:

1. **Start Smaller**: Target Account Executive roles at Series A/B startups or smaller tech companies (100-500 employees) where entry bar is lower
2. **Prove Sales Capability**: Achieve 2-3 years of quota attainment at 100%+ in these roles
3. **Then Move Up**: With proven sales track record, target MNC AE roles (Uber, Salesforce, Microsoft, etc.)

OR

1. **Account Manager First**: Secure AM role at larger company (leverage current CS/AM experience)
2. **Excel in AM Role**: Demonstrate expansion revenue, high retention, upsell capabilities
3. **Internal Transition**: Move to AE role within same company (internal mobility easier than external hiring)

Honest Feedback on Target Role Difficulty

Taipei BDR Role:

What Would Maximize Success:

- Prepare specific stories about partner cold outreach and acquisition

- Quantify partnership funnel metrics (prospects contacted → partnerships closed)
- Research Uber for Business value proposition deeply
- Demonstrate understanding of mid-market B2B sales cycles
- Emphasize adaptability and startup mentality from your diverse background

---

NEXT STEPS

1. Fill in Placeholder Metrics

Go through your resume and replace **[NUMBER]**, **[$VALUE]**, **[X]%** placeholders with actual numbers:

Quizrr AB:

- How many B2B clients in your portfolio?
- What was the approximate ARR you managed?
- What % reduction in support tickets/escalations?
- What % account expansion did you achieve?

Hyper Island:

- How many corporate training accounts did you manage?
- What was your client retention rate?
- How much of the 1.5M SEK growth was directly attributable to your accounts?
- What % expansion revenue came from existing accounts vs. new business?

Gaston Luga:

- How many affiliate partnerships did you build?
- How many retail partnerships?
- What was your partner retention rate?
- What was baseline revenue before your partnership program vs. after?

General:

- What was your typical client satisfaction score/NPS?
- What % of your time was spent on account expansion vs. retention?
- How many stakeholders did you typically engage per account?

If you don't have exact numbers:

- Use conservative estimates: "15-20 accounts" instead of claiming precision
- Use ranges: "[$400K-$600K] ARR" if unsure of exact figure
- Use qualifiers: "Approximately X%" or "~[NUMBER]"

Never fabricate metrics, but do quantify your impact based on reasonable recollection.

---

2. Prepare Interview Stories Using STAR Method

For each major achievement on your resume, prepare a 2-3 minute story:

STAR Framework:

- **Situation**: What was the context/problem?
- **Task**: What was your specific responsibility?
- **Action**: What did you do? (step-by-step)
- **Result**: What happened? (quantified)

Example Stories to Prepare:

Story 1: Partnership Development (Gaston Luga)

- S: Taiwan market underdeveloped, no local partnerships
- T: Build affiliate and retail partnership network from zero
- A: Identified potential partners, cold outreach, negotiated terms, provided enablement
- R: [X] partnerships, 58% sales increase, [$Y] revenue growth

Story 2: Account Expansion (Hyper Island)

- S: Client facing adoption challenges with digital training platform
- T: Increase product utilization and identify expansion opportunities
- A: Conducted needs analysis, created custom implementation plan, quarterly business reviews
- R: [X]% adoption increase, [$Y] expansion revenue, client retention

Story 3: CRM Optimization → Sales Impact (Quizrr)

- S: Partners lacked visibility into performance data
- T: Improve data transparency to enable better decision-making
- A: Implemented Dynamics 365 self-service dashboards, partner training
- R: [X]% reduction in escalations, [Y]% account expansion through proactive insights

Story 4: Cross-Cultural Collaboration (Any Role)

- S: Working with international teams across time zones/languages
- T: Coordinate delivery while managing cultural differences
- A: Established communication protocols, leveraged multilingual capability
- R: [X]% on-time delivery, [Y] client satisfaction score

---

4. Update LinkedIn Profile to Match Resume

Critical Alignment:

- Mirror resume summary in LinkedIn "About" section
- Update current job title/description to emphasize sales/AM aspects
- Add skills: Account Management, Pipeline Management, Value Selling, Prospecting
- Request recommendations from managers highlighting sales/BD contributions
- Ensure consistency between resume bullets and LinkedIn experience descriptions

LinkedIn Optimization Specific to Your Profile:

- Change headline from generic title to value proposition: "B2B Account Management & Partnership Development | Customer Success → Sales Transition"
- Add media: Screenshots of CRM dashboards, partner growth metrics (if allowed)
- Engage with Uber for Business content to signal interest
- Follow Uber recruiters and engage with their posts

REMINDERS

✅ Do's:

Application Strategy:

- **Customize for each application** - Adjust 2-3 bullets to match specific JD keywords
- **Apply to Taipei BDR role first** - Higher probability of success given language/location fit
- **Research company thoroughly** - Reference specific Uber for Business initiatives in cover letter
- **Follow up strategically** - Email recruiter 5-7 days after application with value-add (insights on Taiwan B2B market)
- **Prepare for behavioral questions** - Have 5-7 STAR stories ready covering sales, CS, BD scenarios

Interview Preparation:

- **Be ready to explain every metric** - Interviewers will probe for specifics on numbers you claim
- **Practice consultative sales approach** - Prepare mock needs analysis and discovery questions
- **Show genuine enthusiasm** - Reference specific Uber for Business products/customer stories
- **Demonstrate growth mindset** - Discuss how you've transitioned from CS → sales focus

Positioning Strategy:

- **Acknowledge CS background honestly** - "Customer Success foundation gives me deep client empathy"

- **Emphasize transferable skills** - Account expansion, relationship management, cross-functional collaboration
- **Show commercial awareness** - Discuss revenue impact, business outcomes, not just operational efficiency

---

❌ Don'ts:

Application Mistakes:

- **Don't apply without customization** - Generic resumes get filtered out quickly
- **Don't exaggerate metrics beyond defensibility** - If you claim X%, be ready to explain calculation
- **Don't ignore cultural fit** - Research Uber's values and demonstrate alignment
- **Don't badmouth previous employers** - Frame transitions positively (seeking growth, new challenges)

Interview Pitfalls:

- **Don't apologize for Customer Success background** - It's an asset, not liability; own it confidently
- **Don't claim sales skills you don't have** - Be honest about CS → sales transition journey
- **Don't focus only on operations** - Balance efficiency/process talk with revenue/business impact
- **Don't assume industry knowledge** - If asked about corporate travel/meal solutions, acknowledge gap and emphasize fast learning

Resume Red Flags to Avoid:

- **Don't use passive language** - "Facilitated," "Helped," "Assisted" make you sound junior
- **Don't leave metrics vague** - "Significant growth" is useless; quantify or use ranges
- **Don't hide job titles** - "Senior Marketing Associate" at Gaston Luga should be reframed in bullets, not title
- **Don't fabricate experience** - Never invent achievements; reframe existing work instead

---

💭 FINAL THOUGHT

Your experience is **stronger than your current resume suggests**:

What You Actually Have:

- 5+ years B2B client relationship management across multiple industries
- Demonstrated revenue impact (1.5M SEK growth, 58% sales increase)

- Partnership development from zero (Gaston Luga network building)
- Technical-to-business translation skills (critical for technical product sales)
- International/cross-cultural experience (Sweden, Taiwan, global teams)
- Multilingual capability (Mandarin, English, Japanese, Swedish)
- CRM and data-driven decision-making expertise

What Was Hidden:

- Sales/BD experience buried under "Marketing Associate" and "Customer Success" titles
- Revenue metrics not prominently featured in summary
- Partnership acquisition not framed as business development
- Account expansion work not quantified with retention/growth rates
- Operational improvements not connected to sales outcomes

After Implementing This Review: Your resume will tell a clear story:

1. **Customer Success professional transitioning to sales/BD roles**
2. **Proven ability to manage B2B portfolios and drive revenue growth**
3. **Partnership development and account expansion expertise**
4. **Better fit for Taipei BDR role** (native Mandarin, Taiwan-based, partnership skills)

You have the experience. Now you have the positioning.

📝 YOUR FEEDBACK MATTERS

I hope this review has been valuable in strengthening your application.

If you found this review helpful, I'd greatly appreciate your feedback:

1. Share Your Feedback

Leave your thoughts here

- Your honest feedback helps me improve the service
- Testimonials help other job seekers discover this service
- I read every response and continuously refine my approach

2. Leave a Trustpilot Review

Share your experience here

- Public reviews help build credibility
- Your review helps other professionals make informed decisions
- **Why is the Trustpilot score 3.8?**
  I’ve just started a new business and Trustpilot applies an initial weighting for new

businesses, which can temporarily lower early scores. As more real client reviews are added, the score adjusts to reflect actual service quality.

3. Share Your Results

When you land interviews or offers, let me know! Success stories help me understand what's working and motivate me to help more job seekers.

Questions or need clarification on any recommendations?

Feel free to reach out. I'm here to help you succeed.

Best of luck with your applications!
